Overview:

Office workers, teachers, business owners, volunteers—just about everyone—needs Microsoft Excel to do their job. This comprehensive class starts with formulas and functions and takes you all the way to VLOOKUP, PivotTables, and macros! If you use Excel on the job and/or understand basic worksheet navigation and entering and editing data, this is the one Excel class you've been looking for!

Class Resources and Recommended Books:

E-textbook, online materials, and a 2-year subscription to our comprehensive video learning library included. This class is an excellent prep for the Microsoft Office Specialist Exam.

Bring These Items To Class Daily:

Pen or Pencil, note pad, flash drive

Instructional Procedure:

The Instructor will lecture while demonstrating various Excel techniques on a large screen at the front of the room. Students will follow along on their own classroom computer. Students may ask questions throughout the course.
